

2009 NCERA-101 Station Report.
Lynn Hummel, Greenhouse Manager, University of Wisconsin- Madison

Impact Nugget:

Cooperate with Orbital Technologies Corporation on the growth of plants under LED lighting in the greenhouse. Study is not yet complete.

New Facilities and Equipment:

A new 1340 square meter (bench space) state-of-the-art greenhouse with powerful temperature control and lighting. All computer controlled. We also added a growth chamber from Environmental Growth Chambers

Unique Plant Responses:

None to report. I am a greenhouse manager not a PI.

Accomplishment Summaries:

None to report

Impact Statements:

None to report
